To whom it may concern,

This letter is confirmation that in November 2013 AIRBUS and TESTFUCHS finalised an agreement for the testing and validation of the WaliClean tool developed by TESTFUCHS.

Under this agreement AIRBUS will perform a technical and procedural check of the tool with the intention of validating it for use on AIRBUS A320 Family, A330 / A340, A350 and A380 aircraft. Subject to the successful completion of the tests the tool will be added to the AIRBUS TEM and an AMM task will be available for use of the tool on the effected aircraft.

The validation of the Waliclean tool is now ongoing and estimated to be complete in mid-2014.

For queries relating to this subject please contact maint.gsetools@airbus.com.

Best regards,

A handwritten signature in blue ink, appearing to be "Luc Cousin", with a stylized flourish at the end.
